WITTY — *two games, one board*

Unit 6 · Industrialization & Its Effects · Two players · Four games of Four in a Row, or two games of Fox

THE DRAW — BOTH GAMES

Shuffle the 24 definition cards into one deck, face down. On your turn, draw three and read them.

Play one by matching it to a term on the board and say the term out loud. The card you played goes to the discard pile. The other two go to the bottom of the deck.

If you can match, you must. If none of your three cards match, put all three on the bottom, draw three, and your turn ends.

GAME ONE

FOUR IN A ROW

Fold the sheet, lay it flat between you, and play on the top face. Each player needs a different colored pencil.

YOUR TURN

Mark the square you matched. That square is yours.

WINNING

Four squares in a row — across, down, or diagonal. The FREE square counts toward both players' lines.

Board full with no line: draw.

Call it out: **"Witty!"**

FOUR TO A SHEET

Fold, play the top face, then turn to the next face. Four faces, four games, two layouts.

GAME TWO

FOX

Each player needs a sheet of their own. Fold it and stand the top half up so it faces you and hides the bottom half.

SETUP

On your bottom grid, shade three shapes: one of **4** squares, one of **3**, one of **2**. Each shape's squares must touch edge to edge. Shapes may not overlap and may not use FREE.

One way to place 4, 3, and 2.
Any shape works as long as the squares connect edge to edge.

YOUR TURN

The term you matched is your guess. Your opponent says **hit** or **miss**. Mark it on your standing grid.

A hit earns a free guess at any square touching it, no card needed. Keep going while you keep hitting.

Say **"Found!"** when you have found a whole shape.

WINNING

Find all three shapes. Two games to a sheet, one on each side.

CHALLENGE — BOTH GAMES

Either player, any time, before the next cards are drawn. Turn this sheet over and look it up. **Wrong claim:** cross out your mark, the guess does not count, and you lose your next turn. **Wrong challenge:** you lose your next turn.

Teacher note. Print the board sheet double-sided and fold it in the middle — never cut it, Fox needs the standing half. Every card in a deck carries the same number on its back. Print at 100%, not "fit to page."

ANSWER KEY — *Industrialization & Its Effects*

Unit 6 · 24 terms · Alphabetical

Bourgeoisie

Middle class of owners, professionals, and managers.

Chartism

British campaign for universal male suffrage and the secret ballot.

Communist Manifesto

1848 pamphlet framing all history as class struggle.

Cottage Industry

Manufacturing done in homes before the factory.

Crystal Palace

1851 exhibition hall built to display British industrial supremacy.

Cult of Domesticity

Ideal assigning middle-class women the home and its moral care.

Enclosure

Consolidation of common fields into private holdings.

Factory Acts

Laws limiting hours and child labor in British mills.

Factory System

Concentrating workers and machines under one roof and one clock.

Industrial Revolution

Shift to machine production powered by coal.

Irish Potato Famine

1840s blight and policy failure that killed or exiled millions.

James Watt

Engineer whose condenser made the steam engine efficient.

Jeremy Bentham

Reformer who proposed measuring policy by its consequences.

Karl Marx

Thinker who predicted workers would overthrow the owners of industry.

Labor Union

Workers organizing together to bargain over pay and hours.

Luddites

Workers who destroyed the machinery they blamed for their poverty.

Proletariat

Wage-earning industrial working class.

Railroad

Steam transport that collapsed the cost of moving goods inland.

Socialism

Doctrine that productive property should be owned in common.

Spinning Jenny

Machine that let one worker spin many threads at once.

Steam Engine

Machine that turned coal heat into motion.

Urbanization

Movement of population from the countryside into cities.

Utilitarianism

Judging law and policy by the greatest happiness it produces.

Utopian Socialism

Early socialism built on planned model communities.

WITTY — *two games, one board*

Unit 6 · Industrialization & Its Effects · Two players · Four games of Four in a Row, or two games of Fox

THE DRAW — BOTH GAMES

Shuffle the 24 definition cards into one deck, face down. On your turn, draw three and read them.

Play one by matching it to a term on the board and say the term out loud. The card you played goes to the discard pile. The other two go to the bottom of the deck.

If you can match, you must. If none of your three cards match, put all three on the bottom, draw three, and your turn ends.

GAME ONE

FOUR IN A ROW

Fold the sheet, lay it flat between you, and play on the top face. Each player needs a different colored pencil.

YOUR TURN

Mark the square you matched. That square is yours.

WINNING

Four squares in a row — across, down, or diagonal. The FREE square counts toward both players' lines.

Board full with no line: draw.

Call it out: **"Witty!"**

FOUR TO A SHEET

Fold, play the top face, then turn to the next face. Four faces, four games, two layouts.

GAME TWO

FOX

Each player needs a sheet of their own. Fold it and stand the top half up so it faces you and hides the bottom half.

SETUP

On your bottom grid, shade three shapes: one of **4** squares, one of **3**, one of **2**. Each shape's squares must touch edge to edge. Shapes may not overlap and may not use FREE.

One way to place 4, 3, and 2.
Any shape works as long as the squares connect edge to edge.

YOUR TURN

The term you matched is your guess. Your opponent says **hit** or **miss**. Mark it on your standing grid.

A hit earns a free guess at any square touching it, no card needed. Keep going while you keep hitting.

Say **"Found!"** when you have found a whole shape.

WINNING

Find all three shapes. Two games to a sheet, one on each side.

CHALLENGE — BOTH GAMES

Either player, any time, before the next cards are drawn. Turn this sheet over and look it up. **Wrong claim:** cross out your mark, the guess does not count, and you lose your next turn. **Wrong challenge:** you lose your next turn.

Teacher note. Print the board sheet double-sided and fold it in the middle — never cut it, Fox needs the standing half. Every card in a deck carries the same number on its back. Print at 100%, not "fit to page."

ANSWER KEY — *Industrialization & Its Effects*

Unit 6 · 24 terms · Alphabetical

Bourgeoisie

Middle class of owners, professionals, and managers.

Chartism

British campaign for universal male suffrage and the secret ballot.

Communist Manifesto

1848 pamphlet framing all history as class struggle.

Cottage Industry

Manufacturing done in homes before the factory.

Crystal Palace

1851 exhibition hall built to display British industrial supremacy.

Cult of Domesticity

Ideal assigning middle-class women the home and its moral care.

Enclosure

Consolidation of common fields into private holdings.

Factory Acts

Laws limiting hours and child labor in British mills.

Factory System

Concentrating workers and machines under one roof and one clock.

Industrial Revolution

Shift to machine production powered by coal.

Irish Potato Famine

1840s blight and policy failure that killed or exiled millions.

James Watt

Engineer whose condenser made the steam engine efficient.

Jeremy Bentham

Reformer who proposed measuring policy by its consequences.

Karl Marx

Thinker who predicted workers would overthrow the owners of industry.

Labor Union

Workers organizing together to bargain over pay and hours.

Luddites

Workers who destroyed the machinery they blamed for their poverty.

Proletariat

Wage-earning industrial working class.

Railroad

Steam transport that collapsed the cost of moving goods inland.

Socialism

Doctrine that productive property should be owned in common.

Spinning Jenny

Machine that let one worker spin many threads at once.

Steam Engine

Machine that turned coal heat into motion.

Urbanization

Movement of population from the countryside into cities.

Utilitarianism

Judging law and policy by the greatest happiness it produces.

Utopian Socialism

Early socialism built on planned model communities.

WITTY — *two games, one board*

Unit 6 · Industrialization & Its Effects · Two players · Four games of Four in a Row, or two games of Fox

THE DRAW — BOTH GAMES

Shuffle the 24 definition cards into one deck, face down. On your turn, draw three and read them.

Play one by matching it to a term on the board and say the term out loud. The card you played goes to the discard pile. The other two go to the bottom of the deck.

If you can match, you must. If none of your three cards match, put all three on the bottom, draw three, and your turn ends.

GAME ONE

FOUR IN A ROW

Fold the sheet, lay it flat between you, and play on the top face. Each player needs a different colored pencil.

YOUR TURN

Mark the square you matched. That square is yours.

WINNING

Four squares in a row — across, down, or diagonal. The FREE square counts toward both players' lines.

Board full with no line: draw.

Call it out: **"Witty!"**

FOUR TO A SHEET

Fold, play the top face, then turn to the next face. Four faces, four games, two layouts.

GAME TWO

FOX

Each player needs a sheet of their own. Fold it and stand the top half up so it faces you and hides the bottom half.

SETUP

On your bottom grid, shade three shapes: one of **4** squares, one of **3**, one of **2**. Each shape's squares must touch edge to edge. Shapes may not overlap and may not use FREE.

One way to place 4, 3, and 2.
Any shape works as long as the squares connect edge to edge.

YOUR TURN

The term you matched is your guess. Your opponent says **hit** or **miss**. Mark it on your standing grid.

A hit earns a free guess at any square touching it, no card needed. Keep going while you keep hitting.

Say **"Found!"** when you have found a whole shape.

WINNING

Find all three shapes. Two games to a sheet, one on each side.

CHALLENGE — BOTH GAMES

Either player, any time, before the next cards are drawn. Turn this sheet over and look it up. **Wrong claim:** cross out your mark, the guess does not count, and you lose your next turn. **Wrong challenge:** you lose your next turn.

Teacher note. Print the board sheet double-sided and fold it in the middle — never cut it, Fox needs the standing half. Every card in a deck carries the same number on its back. Print at 100%, not "fit to page."

ANSWER KEY — *Industrialization & Its Effects*

Unit 6 · 24 terms · Alphabetical

Bourgeoisie

Middle class of owners, professionals, and managers.

Chartism

British campaign for universal male suffrage and the secret ballot.

Communist Manifesto

1848 pamphlet framing all history as class struggle.

Cottage Industry

Manufacturing done in homes before the factory.

Crystal Palace

1851 exhibition hall built to display British industrial supremacy.

Cult of Domesticity

Ideal assigning middle-class women the home and its moral care.

Enclosure

Consolidation of common fields into private holdings.

Factory Acts

Laws limiting hours and child labor in British mills.

Factory System

Concentrating workers and machines under one roof and one clock.

Industrial Revolution

Shift to machine production powered by coal.

Irish Potato Famine

1840s blight and policy failure that killed or exiled millions.

James Watt

Engineer whose condenser made the steam engine efficient.

Jeremy Bentham

Reformer who proposed measuring policy by its consequences.

Karl Marx

Thinker who predicted workers would overthrow the owners of industry.

Labor Union

Workers organizing together to bargain over pay and hours.

Luddites

Workers who destroyed the machinery they blamed for their poverty.

Proletariat

Wage-earning industrial working class.

Railroad

Steam transport that collapsed the cost of moving goods inland.

Socialism

Doctrine that productive property should be owned in common.

Spinning Jenny

Machine that let one worker spin many threads at once.

Steam Engine

Machine that turned coal heat into motion.

Urbanization

Movement of population from the countryside into cities.

Utilitarianism

Judging law and policy by the greatest happiness it produces.

Utopian Socialism

Early socialism built on planned model communities.

WITTY — *two games, one board*

Unit 6 · Industrialization & Its Effects · Two players · Four games of Four in a Row, or two games of Fox

THE DRAW — BOTH GAMES

Shuffle the 24 definition cards into one deck, face down. On your turn, draw three and read them.

Play one by matching it to a term on the board and say the term out loud. The card you played goes to the discard pile. The other two go to the bottom of the deck.

If you can match, you must. If none of your three cards match, put all three on the bottom, draw three, and your turn ends.

GAME ONE

FOUR IN A ROW

Fold the sheet, lay it flat between you, and play on the top face. Each player needs a different colored pencil.

YOUR TURN

Mark the square you matched. That square is yours.

WINNING

Four squares in a row — across, down, or diagonal. The FREE square counts toward both players' lines.

Board full with no line: draw.

Call it out: **"Witty!"**

FOUR TO A SHEET

Fold, play the top face, then turn to the next face. Four faces, four games, two layouts.

GAME TWO

FOX

Each player needs a sheet of their own. Fold it and stand the top half up so it faces you and hides the bottom half.

SETUP

On your bottom grid, shade three shapes: one of **4** squares, one of **3**, one of **2**. Each shape's squares must touch edge to edge. Shapes may not overlap and may not use FREE.

One way to place 4, 3, and 2.
Any shape works as long as the squares connect edge to edge.

YOUR TURN

The term you matched is your guess. Your opponent says **hit** or **miss**. Mark it on your standing grid.

A hit earns a free guess at any square touching it, no card needed. Keep going while you keep hitting.

Say **"Found!"** when you have found a whole shape.

WINNING

Find all three shapes. Two games to a sheet, one on each side.

CHALLENGE — BOTH GAMES

Either player, any time, before the next cards are drawn. Turn this sheet over and look it up. **Wrong claim:** cross out your mark, the guess does not count, and you lose your next turn. **Wrong challenge:** you lose your next turn.

Teacher note. Print the board sheet double-sided and fold it in the middle — never cut it, Fox needs the standing half. Every card in a deck carries the same number on its back. Print at 100%, not "fit to page."

ANSWER KEY — *Industrialization & Its Effects*

Unit 6 · 24 terms · Alphabetical

Bourgeoisie

Middle class of owners, professionals, and managers.

Chartism

British campaign for universal male suffrage and the secret ballot.

Communist Manifesto

1848 pamphlet framing all history as class struggle.

Cottage Industry

Manufacturing done in homes before the factory.

Crystal Palace

1851 exhibition hall built to display British industrial supremacy.

Cult of Domesticity

Ideal assigning middle-class women the home and its moral care.

Enclosure

Consolidation of common fields into private holdings.

Factory Acts

Laws limiting hours and child labor in British mills.

Factory System

Concentrating workers and machines under one roof and one clock.

Industrial Revolution

Shift to machine production powered by coal.

Irish Potato Famine

1840s blight and policy failure that killed or exiled millions.

James Watt

Engineer whose condenser made the steam engine efficient.

Jeremy Bentham

Reformer who proposed measuring policy by its consequences.

Karl Marx

Thinker who predicted workers would overthrow the owners of industry.

Labor Union

Workers organizing together to bargain over pay and hours.

Luddites

Workers who destroyed the machinery they blamed for their poverty.

Proletariat

Wage-earning industrial working class.

Railroad

Steam transport that collapsed the cost of moving goods inland.

Socialism

Doctrine that productive property should be owned in common.

Spinning Jenny

Machine that let one worker spin many threads at once.

Steam Engine

Machine that turned coal heat into motion.

Urbanization

Movement of population from the countryside into cities.

Utilitarianism

Judging law and policy by the greatest happiness it produces.

Utopian Socialism

Early socialism built on planned model communities.

WITTY — *two games, one board*

Unit 6 · Industrialization & Its Effects · Two players · Four games of Four in a Row, or two games of Fox

THE DRAW — BOTH GAMES

Shuffle the 24 definition cards into one deck, face down. On your turn, draw three and read them.

Play one by matching it to a term on the board and say the term out loud. The card you played goes to the discard pile. The other two go to the bottom of the deck.

If you can match, you must. If none of your three cards match, put all three on the bottom, draw three, and your turn ends.

GAME ONE

FOUR IN A ROW

Fold the sheet, lay it flat between you, and play on the top face. Each player needs a different colored pencil.

YOUR TURN

Mark the square you matched. That square is yours.

WINNING

Four squares in a row — across, down, or diagonal. The FREE square counts toward both players' lines.

Board full with no line: draw.

Call it out: **"Witty!"**

FOUR TO A SHEET

Fold, play the top face, then turn to the next face. Four faces, four games, two layouts.

GAME TWO

FOX

Each player needs a sheet of their own. Fold it and stand the top half up so it faces you and hides the bottom half.

SETUP

On your bottom grid, shade three shapes: one of **4** squares, one of **3**, one of **2**. Each shape's squares must touch edge to edge. Shapes may not overlap and may not use FREE.

One way to place 4, 3, and 2.
Any shape works as long as the squares connect edge to edge.

YOUR TURN

The term you matched is your guess. Your opponent says **hit** or **miss**. Mark it on your standing grid.

A hit earns a free guess at any square touching it, no card needed. Keep going while you keep hitting.

Say **"Found!"** when you have found a whole shape.

WINNING

Find all three shapes. Two games to a sheet, one on each side.

CHALLENGE — BOTH GAMES

Either player, any time, before the next cards are drawn. Turn this sheet over and look it up. **Wrong claim:** cross out your mark, the guess does not count, and you lose your next turn. **Wrong challenge:** you lose your next turn.

Teacher note. Print the board sheet double-sided and fold it in the middle — never cut it, Fox needs the standing half. Every card in a deck carries the same number on its back. Print at 100%, not "fit to page."

ANSWER KEY — *Industrialization & Its Effects*

Unit 6 · 24 terms · Alphabetical

Bourgeoisie

Middle class of owners, professionals, and managers.

Chartism

British campaign for universal male suffrage and the secret ballot.

Communist Manifesto

1848 pamphlet framing all history as class struggle.

Cottage Industry

Manufacturing done in homes before the factory.

Crystal Palace

1851 exhibition hall built to display British industrial supremacy.

Cult of Domesticity

Ideal assigning middle-class women the home and its moral care.

Enclosure

Consolidation of common fields into private holdings.

Factory Acts

Laws limiting hours and child labor in British mills.

Factory System

Concentrating workers and machines under one roof and one clock.

Industrial Revolution

Shift to machine production powered by coal.

Irish Potato Famine

1840s blight and policy failure that killed or exiled millions.

James Watt

Engineer whose condenser made the steam engine efficient.

Jeremy Bentham

Reformer who proposed measuring policy by its consequences.

Karl Marx

Thinker who predicted workers would overthrow the owners of industry.

Labor Union

Workers organizing together to bargain over pay and hours.

Luddites

Workers who destroyed the machinery they blamed for their poverty.

Proletariat

Wage-earning industrial working class.

Railroad

Steam transport that collapsed the cost of moving goods inland.

Socialism

Doctrine that productive property should be owned in common.

Spinning Jenny

Machine that let one worker spin many threads at once.

Steam Engine

Machine that turned coal heat into motion.

Urbanization

Movement of population from the countryside into cities.

Utilitarianism

Judging law and policy by the greatest happiness it produces.

Utopian Socialism

Early socialism built on planned model communities.
